RE: Letter of Recommendation - Kevin Bao

To Whom It May Concern,

I'm happy to recommend **Kevin Bao** for future employment. He worked with us at RJ Olmen Company as an Assistant Project Manager from May through August, 2025. We're a mechanical contracting firm and during his time here, Kevin quickly became a valuable part of our team. In fact, he took on several additional roles that I did not anticipate needing him for, but I gave him several challenging tasks and he proved his worth; in estimating and logistics.

Kevin brought attentiveness and professionalism to everything he did. He was well-prepared and organized, even when things were moving quickly on our projects. He showed a real interest in learning the trade and often took the initiative to dig into project details and always asked good questions.

What impressed me most was Kevin's dependability. Whether it was handling project documentation, coordinating with the field or keeping track of progress, he could always be counted on to follow through and keep things on track. His positive attitude and work ethic made him a pleasure to work with and earned the respect of both coworkers and clients. He also quickly took the role of Lead BIM Manager. He successfully engineered the HVAC system for a 25,000 sq ft educational facility.

Even though his time with us was short, Kevin left a strong impression. I'm confident he has the skills and drive to succeed in any project management or construction management role he chooses to pursue.

If you'd like to talk more about Kevin's contributions, do not hesitate to call me at my office. I'd be glad to share additional details.

Sincerely,

Zachary J Olmen
Vice President
